SCHOOL TEACHERS WAGES INCREASED

MATERIALLY RAISED OVER THE AMOUNT PAID LAST YEAR.

LEVY INCREASE GENERAL

242 Out of 290 Town and City Schools Vote Maximum Levy and 165 Additional Revenue.

Never before have so many school districts voted the prescribed limit for school purposes and in addition a repair and furnishing fund which in many cases is equal to that for maintenance, according to State Superintendent Sam A. Baker, who has compiled some interesting figures relating to school conditions in this state. According to information received in reports from county and city superintendents from all sections of the state, as a result of the recent annual school election, teachers' wages for next year will be very materially increased over that of last year and in many cases 80 to 120 per cent above that received in 1914.

The top salary paid rural teachers in 1514 was $60 per month and one county reports a maximum of $200 per month for rural teachers next year.

In order to supply funds to meet the necessary advance in teachers wages, Superintendent Baker recently advised all school boards to submit to the annual election the proposition of voting a repair and furnishing tax and transferring the unexpended balance to the incidental fund thereby releasing the larger part of the regular levy for school purposes to the teachers' fund.

All but two districts in one county voted the constitutional limit for maintenance and all but ten voted an additional repair tax, a part of which may be used to supplement the incidental fund. This county will pay $150 per month with a minimum of $85 per month for rural teachers next year. The average monthly salary of teachers in 1914 in this county was $58 per month.

In Barry county 160 districts voted the limit and in addition 50 voted a repair tax, while in Saline county 70 voted the limit and 20 voted a repair tax.

Reports from Greene county indicate that 85 per cent of the rural districts voted the limit and 80 per cent voted an additional repair fund. This county will pay $125 per month with a minimum of $60 to rural teachers which is an increase of 20 per cent over that paid last year.

The increase in revenue for teachers' wages is general throughout the state as shown by the fact that all counties are voting the maximum levy in from fifty to ninety-five per cent of the districts.

The data from town and city schools also show a marked increase in revenue over any previous year. Out of 290 town and city schools, reporting from every section of the state, 242 indicate the maximum levy for school maintenance was voted with practically no opposition while 165 report a repair and furnishing tax in addition was voted. This tax varies from 10 cents to 100 cents on the one hundred dollars valuation. The salaries of high school teachers vary from $1000 to $1800 for the coming year and that of superintendents will be increased approximately 50 per cent over that of last year.

REPUBLICANS HOLD COUNTY CONVENTION

W. C. PIERCE CHOSEN CHAIRMAN, MRS. L. E. WHITE SECRETARY.

DELEGATES ARE SELECTED

To the Congressional Convention at Savannah and to State Convention.

The Republican county convention held this afternoon selected W. C. Pierce as chairman and Mrs. L. E. White as secretary. Delegates were present from each township excepting Green township.

Two committees—one on credentials composed of a member from each township, and the other one on permanent organization and order of business—were appointed. After the reports of the committees, a nominating committee of one member from each township was selected to chose the delegates to the congressional convention to be held at Savannah on April 30 and to the state convention to be held at Kansas City on May 5.

The delegates to the state convention are:

James E. Hornbuckle, Clearmont; S. A. Roach, Barnard; W. S. Ozley, Hopkins; George L. Felton, Parnell; I. A. Goodson, Ravenwood; J. M. Enis, Clyde; Mrs. L. W. Garnet, Skidmore; J. W. Praisewater, Burlington Junction; W. C. Pierce, Fred Hull, H. L. Haines, Mrs. C. C. Corwin and Miss Jessie Parcher, Maryville; and W. E. Brittain, Guilford.

The delegates to the congressional convention are:

H. C. Bailey, Quitman; Mrs. Graham, Hopkins; Henry N. Moore and Mrs. Frank Miller, Graham; Mrs. Frank Miller, Graham; Mrs. DeVault, Elmo; W. G. Carpenter, Burlington Junction; C. M. Copeland; Mrs. Joe Eaton; R. A. Walker, Skidmore; W. F. Phares, H. L. Raines, H. F. Loet, Miss Laura Curfman and Mrs. A. K. Frank.

No committee on resolutions was selected by the convention and no endorsement of any kind was made. Friends of Dr. John LeGrand Baker of Maryville who is a candidate for the Republican nomination for congress were wanting an endorsement of Dr. Baker as he is the only candidate from this county for this office.

According to several of the delegates the sentiment in this county is for Arthur M. Hyde for the Republican nomination for governor. This is rather surprising on account of the fact that Hyde's apponent, E. E. E. McKinsey of Springfield, was for many years a resident of Maryville and very active in the political affairs of the Republican party while he was living here.

Mrs. H. M. Robertson of St. Joseph a member of the Republican State Women Committee, attended the convention. She was in conference this morning with the women delegates to the convention.

DISSENT, NOT CENSURE, OF REED, WAS JOPLIN ATTITUDE

Judge Priest Emphasizes Fact That None of Senator's Opponents Were Rewarded.

Former Judge Henry S. Priest, one of the pro-Reed delegates from St. Louis to the Democratic State Convention, giving his impressions to the St. Louis Globe-Democrat yesterday of the defeat of Senator James A. Reed for delegate from the Fifth District, said the action taken may be regarded "rather as dissent to his views than a censure of him."

Neither Charles M. Hay, James C. Jones nor others active against Reed were rewarded by the convention Priest said.

Priest dictated the following:

The convention at Joplin was interesting. It was the first in the state in which the women actively participated. Their influence was felt, but it was not dominating. They had been taught the theory of parliamentary law; they generally did not recognize it in practice.

The temper of the convention was mainly mastered by the Party Committee. It was conservative and conciliatory. Generally it was an attitude of "watchful waiting." It refrained from expressing any hostility to Senator Reed, though it approved the league of peace in some form or another, and because Senator Reed was entirely against it refused to confirm his election by his own district as delegate to the national convention. This may be regarded rather as a dissent to his views than a censure of him. It refused to recognize by reward anyone who had personally assailed Senator Reed. Mr. J. C. Jones went down first under this sentiment, Mr. Hay followed, and last and least, Judge Scott of Joplin, who fired the first county resolution against Reed.

There was no effort to dedemocratize Senator Reed or his followers.

A. C. ("Tony") Stuever and Sam Lazarus, friends of Senator Reed, were elected as delegates by the state convention for the Tenth (St. Louis and St. Louis county) District and Joseph B. Shannon of Kansas City, who was nominated with Reed for delegate in the Fifth District, was also elected. James T. Bradshaw State Grain Commissioner, and Casimer Welsh, supporters of Reed, were elected alternates. None of these men were opposed. All are bound by the unit rule, however, to vote for an indorsement of the League of Nations.

AMERICAS FRUIT— THE RED APPLE.

Americans are coming to treat apples more as a food and less as a between-meals superfluity than they used to do, yet when the north wind blows and the fireside glows they can't refrain from paying especial attention to the question whether there is a plenty of them. This year, the farm reports tells us, there is not. There are, in the whole country, 1,091,000 barrels fewer than there were in 1918, and almost the same shortage from the crop of 1916, tho we are considerably better off than we were in 1917. That is, we have 24,000,000 barrels this year. Thats about 1 for each family in the country, and each family, not each member thereof, might, if they were evenly distributed, have 1 apple a day. The true lover of apples will never admit this to be sufficient, and he should not. It is not especially cheering to learn that the countrys crop of apples does not tend to increase. Our record crop was in 1912, but we had almost as many in 1896, and the crop in 1905 was greater than that in either of the past 4 years. But the apple is Americas fruit, the most satisfactory, the most dependable, the most healthful fruit in the world.—Hartford Times.

EVENING GOWNS SUITABLE FOR ADAM-EVE PRODUCTION

London, April 26.—A theatrical producer was asked why he had never tried staging any of the miracle plays about the Garden of Eden, says the Daily Mirror, and he replied that the difficulty would be in costuming our parents "before the fall."

"But would there be such difficulty?" the Mirrdr asks.

"Wouldn't many of the costumes that now pass for dresses do pretty well as the coverings of Adam and Eve? Why, some of the ordinary evening undresses would almost meet the case."

Just Where and How Is the Money to be Spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

1 FOR THE CHURCH'S WORK AT HOME. A score of items come under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward this vast work of Americanization if the church does not?

2 FOR HOSPITALS AND HOMES. Every year thousands of men and women seriously ill are turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.

3 FOR HIGHER EDUCATION. Of the 450,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are just as pressing as the needs of larger schools, and you have only to read their list of alumni and alumnae to measure the value of their contribution to America.

4 FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?

5 FOR THE CHURCH'S WORK ABROAD. Influenza came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.

6 PREACHERS' SALARIES. The preacher is called the "forgotten man" and well he may be. Eight out of ten preachers are paid less than $20 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget: examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

H. C. L. Campaign to Continue.

Attorney General Palmer has positively denied the press report of April 15th that the H. C. L. Campaign was to be discontinued on account of the high cost of reducing the high cost of living.

A telegram to Mrs. John R. Leighty, State Chairman, Woman's Activities, H. C. L.—read: "No truth in press report" (Signed) Palmer.

Howard Figg—Special Assistant to Attorney General Palmer also denied that he was about to resign. Figg wired the Womenn's Activities division of the Campaign:—"No intention of closing campaign and hope predictions for successful campaign in Missouri will be realized. Assure you of complete co-operation at all times from here."

The woman's part of the Missouri Campaign has just gotten into full swing and it was declared by Mrs. Oscar Johnson, Chairman for St. Louis, that her committee would proceed to follow out its program regardless of whether Washington continued to back the movement or not.

The Editor.

Breathes there the man with soul so dead, who never to himself has said: That editor has quite a head, I'm glad to take his paper. He's got a raft of grit and sand, he prints the news of all the land, he boosts the town to beat the band, and that's the proper caper. He soaks the grafter in the neck, he saves the Ship of State from wreck. He's Johnnie on the spot, by heck, when things are in a jumble. He writes the pals that bring the dough, he chases all our gloom and woe, he tells us all we want to know—and yet he is quite humble.—Walt Mason.

60 Ton Miles of Motor Truck Freight Per Person

DURING 1917 (latest authentic figures available) motor trucks hauled 60 tons of freight a mile for every person in the United States.

Then the country was at war and the capacity of the railroads was overtaxed.

It is doubtful if even a small percentage of this enormous tonnage could have been moved except by motor trucks.

The management of the Standard Oil Company (Indiana), recognizing the necessity of furnishing facilities for supplying gasoline to automobiles and trucks as they traveled through the country, established Service Stations at convenient points throughout the territory served.

These Service Stations perfected the system of distribution maintained by the Company.

The drivers of this caravan of motor trucks which carried the 6 billion ton miles of freight in 1917 would have found their task more difficult of accomplishment had it not been for the network of Service Stations along the way.

While the Standard Oil Company was supplying a substantial share of the fuel consumed by these motor trucks, it also was supplying its regular patrons, and meeting the demands of the United States Government with great quantities of gasoline for war purposes.

Its preparedness and its ability to meet an emergency, however unheralded the emergency may be, serves to emphasize one of the salient phases of the bigness of the Standard Oil Company (Indiana).

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 25c.

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire.

There is a harassing discomfort caused by Eczema that becomes a torture. The itching is almost unbearable and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle today, and you will see results from the right treatment. Write for advice.
